songs have arrived at Kiev. ; sengers for New York on board."

POWER RATE HEARING TO BE RESUMED TODAY

tion and his bill, dated August 23, showed that a readjustment had been made.

Power need for industrial purposes is divided into a number of classes with different charges and methods of determining rates made for the different classes, according to the testimony of E. B. Walther. All charges are made on the basis of maximum demand. In the oil fields, the maximum demand is determined by taking the maximum demand each day and dividing it by the total days in the month, giving the average maximum demand for the month. For all other industrial uses the maximum demand is determined by taking a maximum reading once or twice a year.

Traction Company Has Low Rate

Upon questioning Walther stated some of the rates that are charged certain power users in the city of Fresno. The Fresno Traction company is charged 1-2 mills per kilowatt hour for the energy it uses. This is the lowest rate in the city and is not on file with the Railroad Commission. Walther also stated that the rate in the Fresno Traction company was not on the basis of maximum demand, but on the basis of the actual amount of power consumed. The Fresno Traction company is charged on a sliding scale, Walther said, and what the rate was. He did say the charge was on a basis of maximum demand.

The Valley Ice company is charged 5 mills per kilowatt hour for the power it uses, as against the regular factory rate of 3 cents for the first 50 hours and 1 cent for the excess. The People's Ice company pays the factory rate, Fred W. Gregory testified in the afternoon, that the power company offered to furnish energy at the same rate charged the Valley Ice company.

If the People's Ice company would not use any other kind of power.

Walther also stated in the course of his examination that when a small demand reading was taken, if the first reading was higher, it would continue to be the maximum demand rate, unless there was some very radical difference.

Variance in Charges

These bills showed that some business houses were paying more for their energy actually consumed than other houses that actually consumed nearly twice as much, simply because their stores had more lights installed than the others.

The following shows charges made in a number of instances, based on maximum demand. The actual amount of electrical energy consumed is given to show the variance in the charges.

FOR THE ARMENIANS

Usually Fresno is but a small part of any American public movement, but today leading men of this city will take action on a national matter in which this city must perform a leading part, that of relief for suffering Armenia. The whole of the United States, as a nation, is stirred by the atrocities which the Turks are perpetrating in Asia Minor against a people which they hate both for racial and religious reasons. But it happens that Fresno is one of the few districts in the United States where there are Armenian settlements. The people of this race here are our fellow citizens. The horror that is felt because of the slaughtering of the helpless people of Asia Minor is therefore brought more directly home to us.

The conference which Mayor Snow has called tonight will be the occasion for Fresno's taking the lead as a city, in a national relief movement. It should be remembered that the present treatment of the Armenians by the Ottomans is but the climax of an enslavement that has endured for 500 years or more. The Armenians have been a peaceful people, seeking to keep their place in the sun with a spirit in accordance with the principle of the universal brotherhood of man under the protection of God. For centuries they have been hewers of wood and drawers of water for an alien race who have despoiled them for their own selfish ends. Neither man, woman or child has been free from the terror of possible atrocity. The Christian world has shuddered, but the Christian nations of Europe have been kept by their mutual jealousies from taking any definite action for the relief of their fellow Christians in Asia. Now the war between the Christian nations has given the Turks the opportunity for this final effort at extermination.

It is a part of the grim irony of fate that the modern spirit of the present regime in Turkey should have sealed the fate of the Armenians. The older Turkey was content to make slaves of the Armenians. The newer Turkey feels that to consolidate its power it must put an end to the danger of an Armenian uprising. Expatriation and massacre are the weapons they are using.

ALREADY DEAD

The local Republican county committee has issued a proclamation protesting against the submission to the people this fall "by the present state administration" of the non-partisan bill, and calling on all voters to attend these laws in order that "the political organizations of this state shall be allowed to continue their existence as heretofore," and that the people of this state shall not be "denied a privilege which they have always enjoyed."

It has been a familiar device on the part of the standard Republican organizations first to do unpopular things and then to berate the Progressive administration on the pretense that it did them. When the Republican organization, for instance, deliberately kept the Taft electors off the ballot of California, there was a terrific howl raised against the Progressives on the charge that it was they who had done so. Now comes the protest of the anti-referendumists against the referendum which they have themselves invoked, and the complaint of burdening the people with an election on a question which the representatives of the people did not set, and which these very protestants were the ones to unsettle and refer to the election. Their disapproval in having the election occur this year instead of next is because the election this year will give the people a chance to determine the question. The people's representatives decide that elections should be non-partisan. The chief apostles of unconditionally representative government refused to abide by the action of representative government, and suspended action of the legislature by the pernicious Democratic device of referendum. But they were as little willing to abide by the will of the people as they were to accept the act of the people's representatives. What they wanted was not to get the question decided by popular vote, but to prevent it from being decided. If the special election had not been called this year, the law passed by the legislature as to the manner of conducting next year's election could not have gone into effect until after that election. Thus a small minority of the people by petition could have defeated the action which the majority of the people, by their representatives, had already taken. The Progressive legislature and state government was and is willing to abide by the decision of the people, but it proposes to give the people a chance to make that decision. Hence these protests.

There is another curious inconsistency in these protests from the county committees against the state non-partisan law. If the right of the people to use national parties to elect local officials is sacred, certainly that portion of that right which is within the special defense of county committees is the county portion of it. If one such right exists, it includes the right to elect county officials on party tickets. The partisan election of

county officials is quite as customary as the partisan election of state officials, and is much more nearly the concern of county committees. It is also much more vital to the maintenance of the old-fashioned sort of political organization. And when the partisan election system was adopted by every all the way from fifteen to fifty years ago, there was no organized protest against it. When it was adopted by the legislature for the counties three years ago there was no referendum against it. Now, whatever validity that sort of a right of party action ever had has been extinguished long ago, and the corpse of that sort of party organization is not only dead, but buried and mostly forgotten. The new system is no longer a proposed for discussion. It is an accomplished fact. The protests against it ring like voices from a forgotten past.

JUST JUSTICE

There are two aspects of the issues raised in the trial of Matthew Schmidt, which began yesterday in Los Angeles, that the public should keep carefully in mind. The distinction may serve to ally some possible bitterness and recrimination with regard to the case. Schmidt, with his associate, Caplan, is charged with having purchased and transported the dynamite which was used to blow up the Times building in 1910. Violent partisans on the one side will contend that these men are being defended because they actually did join in the dynamiting of the Times. Violent partisans on the other side will contend that these men are being persecuted because they are merely "charged" with a hostile attempt upon the union-busting newspaper.

There are of course many partisans who fall into each of these classes. It is probable that some of the men who are actually engaged in some capacity on each side of this trial are interested in the class issues raised. But the great majority of citizens, whatever their sympathies may be in respect to various industrial questions, are anxious to see substantial justice done in this case, and will take pride in the court just to the extent that they are convinced that justice has been done. They do not believe in condoning the dynamiting of the Times properly, even though it might have been done by men who thought they were engaged in a "labor war." Nor do they believe in depriving either of these accused men of any of the just rights of trial, because they happen to be accused of participation in a wholesale murder, and because a goat must be found. There must be no scapegoats in the Times case. Nor should there be any remission of justice.

PROFITABLE YEAR FOR THE SANTA FE

Big Wheat Crop of Kansas Is Main Factor

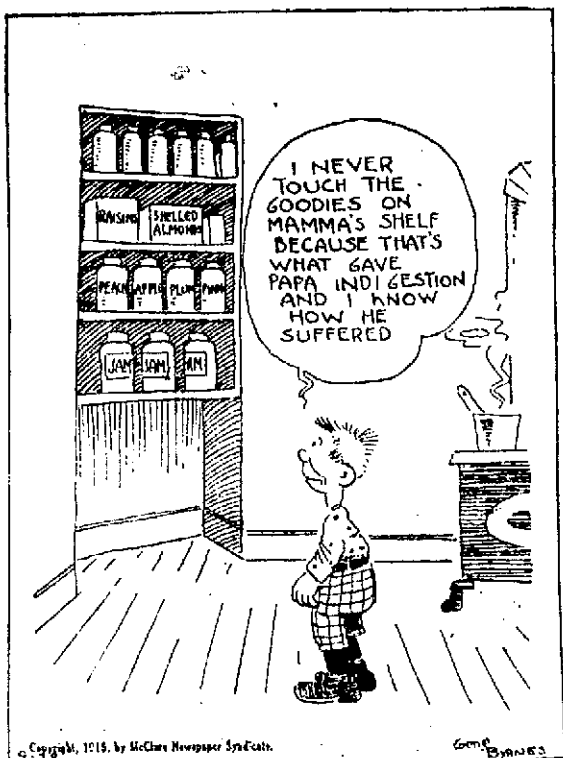

CHICAGO, Oct. 4.—The fiscal year 1915 has been the most profitable in the history of the Atchafalaya, Topeka & Santa Fe Railway company, according to the annual report made public here today. The report says: "The year has been the largest as to earnings, both gross and net, in the history of the company. Two reasons contributed mainly to this result, viz: The unprecedented wheat crop of Kansas and the largely increased yield of agricultural products in the so-called 'main country' in western Texas and Oklahoma. These two items were more than sufficient to overcome the falling off of \$1,304,172.05 in net revenue of the lines west of Albuquerque."

BULGER MUST DIE

DENVER, Oct. 4.—The Colorado Supreme court today denied an application for a rehearing in the case of J. C. Bulger, sentenced to hang for the murder of J. F. Nicodemus, a Denver hotel manager. Bulger's execution is set for the week beginning October 31.

Tooth-Picks

A tooth-pick is an instrument of torture—not to the man who uses it, but to those who watch him. It is the unpolished table tool known. Men who eat their soup with a suction

COTTON CROP IS UNUSUALLY SMALL

WASHINGTON, Oct. 4.—A heavy decline in the condition of the growing cotton crop during September, almost double the average decline of the last ten years, has decreased the production prospects forecast earlier in the season by almost a million bales. The Department of Agriculture today estimated the crop at 10,950,000 equivalent 500-pound bales which would be the smallest crop since 1908.

WILL TAKE UP COMSTOCK'S WORK

NEW YORK, Oct. 4.—The Society for the Suppression of Vice announced today that it has appointed John S. Sumner as acting secretary of the society to continue the work of vice suppression in which the late Anthony Comstock was engaged. Mr. Sumner is a lawyer and son of Rear Admiral George W. Sumner, retired.

Men who eat their soup with a suction dredge accent shudder at the idea of using a tooth-pick in public.

of an exclusive hotel with a tooth-pick in his mouth. Still the tooth-pick is a necessity and a few rules for its use might not be out of place.

In the first place, the performer should change his name in order to avoid disgrace when caught. In minor adventures like stealing railroads or elections he can work under his own name. But in these cases the censure is not so scathing. Having changed his name, the performer should then pick out a large isolated ocean and wade into it about seven miles where he will be safe from observation. By that time he will not need the tooth-pick anyway and his reputation will be saved. If late years have come to converse unflinchingly in high social circles on subjects which would cause an Iowa family dinner party to run are not easily shocked by any sort of conversation nowadays in advanced quarters. But we still maintain a dignified horror of the tooth-pick. This is good. Society needs to be

1937 MARIPOSA STREET

This is the Stove Polish YOU Should Use

It's different from other because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Cleans sample stove and sold by hardware and grocery dealers.

All you need is a little Black Silk Stove Polish. If you don't like it, we'll refund your money. If you do, your dealer is authorized to refund your money. Inset on Black Silk Stove Polish. Model in use on stove.

Black Silk Stove Polish Works Sterling, Illinois

The Black Silk Stove Polish from Sterling, Illinois, is the best in the world. It is the only one that will give you a shine in every drop.

TO RESUME WORK IN CIVIC CENTERS

To Adopt Plans for Fall in Reorganization On Saturday

The Central California Civic League will resume activities for the year in the semi-annual meeting at the Fresno Normal school at 2:30 o'clock Saturday afternoon. The principal business will be the reorganization of the work of the league and the adoption of a program of education and entertainment for the various civic centers of Central California.

The inauguration of the moving picture machine as a permanent feature of the work promises to be one of the most important steps of the league. The league is in cooperation with the Fresno Normal school, which has been designated as a distributing center for the bureau of social economics at Washington. This organization has a considerable number of films on a variety of subjects. The Normal school has purchased a moving picture machine which will be used in the various school houses in the valley where civic centers have been established.

The Central California Civic League is a cooperative body formed for the purpose of giving local communities greater advantage in entertainment and education than can ordinarily be secured. To make this part of the work of the league most efficient and to obtain a large list of speakers, dramatic offerings, musical numbers and similar features for the programs in the various centers, Mr. B. Given, manager and secretary, has advised the centers to submit reports on their plans for the year.

The league was launched last February. A number of meetings were held in the various parts of the San Joaquin Valley in the spring and early summer months. It is proposed to establish a large number of new centers during the next year.

SUPERVISORS ACT ON SCHOOL BOND MATTER

Last Step Taken to Validate Kingsburg Joint Union High School Issue

The last step toward validating the \$4000 bond issue of the Kingsburg joint union high school district, which was voted last spring, was taken yesterday by the board of supervisors.

This bond issue was dated March 1, 1915, but the interest was payable in July and January. This necessitated an odd coupon and made a great amount of unnecessary work for the officials. The issue was purchased by the district and the error in the interest date was not discovered until after the sale had been made.

It was thought that this would invalidate the issue and the matter had been hanging fire for some time. At the meeting of the board of supervisors yesterday a resolution was adopted by the unanimous vote of the board fixing the date of the bond issue as of July 1. This it is believed will dispose of the question and the money for the bonds be paid over to the proper authorities. The issue bears 6 per cent interest.

SEPTEMBER BUTTER SCORING IS REPORTED

Highest Standing Gained By Creameries At Loleta

Twenty-four chubs of butter were entered in September scoring of the Educational Butter Scoring contest held September 29 in San Francisco. The judges were T. J. Harris, official inspector of the San Francisco Wholesale Dairy Produce Exchange, John Solie of Eureka, and L. M. John of the University Farm. With the exception of those who do not wish their scores published, results were as follows: The name of the butter making being first, the creamery second, and the score third. H. L. Beck, Danish Creamery of Fresno, 91 1-2; P. Bernagotto, Valley Creamery of Hanford, 90; B. Berthel, Los Angeles Creamery Co. of Hanford, 83; N. Christensen, Dairyman's Co-op Creamery of Tulare, 82; G. Dorow, Mission Creamery of Perilla, 80; W. J. Ginnell, Valley Creamery of Loleta, 81 1-2; J. Hopper, Safford's Market Creamery of San Francisco, 81 1-2; J. N. Jensen, Visalia 80 1-2; J. N. Jensen, Visalia 80 1-2; Simon Koppe, Montague Creamery of Montague, 80 1-2; L. Larsen, Sunset Creamery of Loleta, 80; D. Lemmer, University Farm Creamery of Davis (Not competing) 82; B. Myers, Los Angeles Creamery of San Luis Obispo, 84; P. Peterson, Valley Flower Co.-op Creamery of Perilla, 80; J. C. Phillips, Delta Creamery of Imperial, 81; G. O. Plunkett, Visalia Creamery of Visalia, 82 1-2; Wm. Roby, Willow's Creamery of Willow, 80; Minden Butter Mfg. Co. of Minden, Nevada, 81.

The fifth entry will be scored in connection with the California Creamery Operators Association convention, October 28, 29, 30. Contest buttermakers will be given credit for the score they obtain at the convention scoring. Information regarding this will be sent out later. Buttermakers not receiving notices of the bi-monthly scoring, who are interested, are requested to write for entry blanks and shipping tags. The convention scoring will be the largest contest of the year. Every creamery is urged to take part.

City Trustees Hold Busy Session

TRUSTEES AND BAILEY CLASH; NO 'PHONE FRANCHISE LIKELY

Manager Says Company Will Not Bid If Free Telephones Demanded; Trustees Say They're Not Interested; Find Company Put Up No Money

The City Trustees and Raymond Bailey, district manager of the Pacific Telephone & Telegraph Company, clashed last night, with the result that no action was taken on the application of the company for a franchise and after November 3, it is very likely the telephone company will be operating in the city of Fresno without a franchise.

The clash came over a provision providing for free telephones for municipal purposes. After the trustees had decided to insert this provision, it was discovered that the telephone company had put up no money when it made its application, as required under ordinance No. 251, to cover advertising expenses, etc., and the trustees promptly laid the resolution of intention and ordinance on the table.

The provision for free telephones was offered by Trustee Bailey and upon motion of Trustee Lewis, seconded by Trustee Cobb, was inserted.

"I wish to inform the trustees, on behalf of the Pacific Telephone & Telegraph Company, that if this provision is inserted, the company will not make any bid," declared Bailey.

"That doesn't interest us a bit," replied Trustee Waterman.

"Trustees Have Some Rights" Trustee Bailey said, "I am continually reminded of the trustees that a number of things it requested in the franchise, were merely concessions on the part of the telephone company. These continual reminders finally aroused the ire of Waterman.

"I personally do not favor free telephones," he asserted, "but I will vote for anything to show these people that the city trustees have some rights and can make such demands as they deem justifiable."

"I admit you may," said Bailey. "You haven't admitted it thus far tonight," declared Waterman.

After the trustees had laid the entire matter on the table, Bailey told them that after November 3, the privilege of free telephones would be at an end.

"We are already aware of that fact," replied Mayor Snow.

Future Action Problematic Just what will happen after November 3, when the franchise of the company expires, if no renewal is granted in the meanwhile, is problematical.

In speaking of the matter after the meeting, City Attorney Smith said that if the city did not wish to take any action toward forcing the removal of the system, a step not at all regarded as likely, and the company refused to furnish any more free telephones, the

AUBREY FRINK NEW PARK COMMISSIONER; IS NURSERYMAN

The appointment of Aubrey Frink, well-known nurseryman, for the new member of the board of park commissioners, was proposed by Mayor Allen E. Snow and officially endorsed in the meeting of the board of city trustees last night. Frink fills the vacancy caused by the recent death of J. S. Jones.

At present Frink is a contributor to coast and eastern horticultural and farm journals, but for many years he was engaged in the nursery business in Fresno and later at California at Fresno. Some time ago he passed the state examination for state horticultural inspector.

The other members of the park board are: Mayor A. E. Snow, chairman; W. S. Marshall, second; Louis Gundelfinger and L. E. Cronkite.

CITY AUDITORIUM TO HAVE ORGAN

Trustees Order Clerk to Advertise; to Cost About \$5,000

The city trustees last night took the initial steps toward purchasing a pipe organ for the Fresno auditorium. The organ will cost not to exceed \$5,000, and is also to have a player attachment, which, it is estimated, will cost about \$500 additional.

Upon motion of Trustee Forster, the city clerk was instructed to advertise for bids.

The building committee of the board of trustees has considered for some time the possibility of purchasing a pipe organ for the city of Fresno and has carried on a large amount of correspondence with pipe organ manufacturers. Estimates have been placed before the trustees at various times.

TOTAL RECEIPTS AT DISTRICT FAIR ARE \$33,444

Entire Attendance in Five Days, 68,762; Paid Admissions, 42,512

Directors Meet October 16; Grounds to Be Improved

Following the auditing of the reports on receipts and attendance at the Fresno District Fair yesterday, C. G. Eberhart, secretary, stated the total receipts were \$33,444.55, and the total attendance, as nearly as it could be ascertained, was 68,762. The amount of receipts assure the financial success of the fair and it is believed a sufficient sum will remain after meeting all claims to greatly improve the grounds.

The receipts are divided as follows: Gate receipts, \$21,035; grandstand, \$9,874.90; and concessions, \$2,534.65. Daily receipts were: Tuesday, Gate receipts, \$1,544; grandstand, \$448; Wednesday—Gate, \$1,194.90; grandstand, \$1,785.75; Thursday—Gate, \$1,211.90; grandstand, \$1,219.75; Friday—Gate, \$4,426.75; grandstand, \$1,568.50; Saturday—Gate, \$7,560.70; grandstand, \$4,621.90.

Attendance was divided as follows: Total individual paid admissions, 42,512; season tickets, 1,300; and for the five days, 6,000; 7,000 Indian war bonnets sold to children less than 12 years old, all these children being admitted free except on Saturday, 7,000; 400 passes issued to representatives of the press and fair employees, 20,000; 500 exhibitors tickets, 2,750; 950 parent participants, present each day and sometimes twice a day, 4,500.

The work of clearing up the details of the fair is keeping Mr. Eberhart and the association employees very busy. Claims against the association are being paid as rapidly as possible, and it is believed that this will be finished and all claims satisfied before October 15. A general meeting of the board of directors will be held on that date.

Beyond the general plan of improving the fair grounds such as more remaining after the expenses have been paid, little has been mapped out. Sidewalks, lawns, flowers and other improvements will be made, probably will be determined. The extent of these improvements cannot be planned until the sum of money at the disposal of the directors for this purpose is known.

The work of cleaning up the grounds was about completed yesterday. The scenery used in the Fresno District Fair has been stored and the entire place presents a deserted appearance. This is especially true when its present aspect is compared with last week.

JONES WILL IS ADMITTED TO PROBATE

Letters of Administration Granted Rosa P. Jones Also Allowance

An order was issued yesterday by Judge Austin in the Superior Court admitting the will of the late J. S. Jones to probate and granting letters of administration to Rosa P. Jones, who to give bonds in the sum of \$71,000.

An order was also issued directing that Rosa P. Jones be allowed \$500 per month for support.

Charles R. Beckhuber and A. R. Clark were appointed appraisers of the Jones estate.

WHEN YOU WANT DRUGS Go to Smith Bros' Drug Store. They are the leaders in pure drugs and low prices.

ASK RE-NUMBERING OF RESIDENCES TO CORRECT ERRORS

Postmaster Hughes Agrees to Co-operate With City in Work

Assessment District Is Necessary to Light One Dark Block

Acting on a communication by Postmaster Hughes and Street Superintendent Chapin, the city trustees last night referred to the assessment district the matter of re-numbering houses in the city and correcting many confusing errors. The street superintendent will report at the next meeting.

Hughes and Chapin stated that the mail carriers and the members of the fire department, as well as citizens and strangers were experiencing great inconvenience because of the haphazard numbering of the houses in some portions of the city.

Mr. Hughes stated that the matter was much more serious than a mere inconvenience. Among the streets mentioned, portions of which cause great inconvenience, Mr. Hughes said, were Angus street, Kern avenue, Kings and Main avenues. Mr. Hughes stated he has maps of all houses in the city, correctly and incorrectly numbered, which he will send.

Assessment Necessary. B. Cook, one of the property owners in the "B" block on J street, appeared before the trustees and stated the owners along the block were unable to reach an agreement, though a majority wished to install the electric system of lighting. It was necessary, therefore, Mr. Cook said, to leave action on the matter with the board. Four of five property owners, representing one-fourth of the entire frontage of the street, have refused to sign an agreement for electric lighting. It was necessary, therefore, Mr. Cook said, to leave action on the matter with the board. Four of five property owners, representing one-fourth of the entire frontage of the street, have refused to sign an agreement for electric lighting. It was necessary, therefore, Mr. Cook said, to leave action on the matter with the board.

Objection to New Ordinance. A brief argument regarding the new building ordinance, which went into effect yesterday, was presented when Street Kluge appeared in behalf of a client who had been denied a permit to operate a moving picture show in a former church on F street. It was shown during the remarks of the trustees that only one building would house moving picture shows under the provisions of the new ordinance, and that there are fewer than a half dozen of class A buildings in Fresno.

The ordinance would not affect the theaters doing business at present, but only those to be erected later. Mr. Kluge, his client having been refused a permit by the city building inspector, who stated a theater in the building was dangerous, appealed to the board. Action was postponed two weeks.

Liberty Bell Committee Mayor Snow read a communication from the Philadelphia municipal officials requesting that any receipt that might be given the Liberty Bell during its stop in Fresno be under the direction of the city officials. The committee to have charge of the plans: George S. Waterman, T. G. Hart and F. L. Irwin.

The Liberty Bell is scheduled to arrive in Fresno at 5:35 o'clock on the afternoon of November 11, and will leave fifteen minutes later. Edward Preble stated that it would not be a difficult matter to have the length of the relic's stay here lengthened and the hour advanced so that the school pupils might see the bell.

Amendment to Ordinance dealing with the collection of garbage, and which allows the collectors an hour and a half longer in the morning to make their rounds, introduced by A. H. Sweeney, city health officer, was passed. The collectors must quit at 5 o'clock, according to the old ordinance, and they are unable to dispose of the early morning refuse, leaving it all day. The amendment advanced the hour to 6 o'clock.

Dr. Train Corner A communication from the Chaslor & Lyon Company, in which Milton M. Dearing, attorney for the firm, stated that the city would be held responsible for damages caused by the street into the basement during the winter, was read. The matter was referred to the city engineer with instructions to investigate the cost of a better drainage of the street at that place.

The request of N. B. Cooper, secretary of the Fresno county reception committee, permission for the use of the city auditorium next June by the grand parlor of Daughters of the Golden West was granted.

Contracts awarded printing 2,000 copies of the new building ordinance was awarded to the Franklin Printing Company on a bid of \$235.

Thompson Bros. were awarded the contract for the sewer construction in assessment district No. 9 on a bid of \$2,055. The engineer's estimate for the cost of the work was \$1,075.

Thompson Bros. were awarded the contract for the construction of sewer in blocks 25 and 29, Hagedwood, on a bid of \$537. The city engineer's estimate of the cost was \$545.

The petition of A. Avakian, presented through James Burns, to establish a news stand in front of 1021 J street, was granted.

The petition of J. L. Stoner for a messenger service was denied.

Wants Street Sweeper Mayor Snow, in a letter, urged the trustees to consider the purchase of an automatic street sweeper to cost \$1,000, now in use in Valley, which he said would greatly reduce the cost of street sweeping here. The matter will be considered later.

An ordinance requiring all trolley poles, erected in future, to be of steel and to be set adjacent to curbs, was passed.

The bill on fire hose were received and taken under consideration by the police and fire committee. The bill ranged from 75 cents to \$1.10 on a 1-2 inch hose and from \$2 to \$9 on a 1-1/2 inch hose.

Dr. A. H. Sweeney, city health officer, reported that the California Products Company would take steps to remedy conditions near their plant by using chloride of lime and crude oil on the waste water.

The city electrician will be granted another assistant at \$100 a month and the salary of the first assistant will be raised to \$110.

The Fresno Vacuum Company was granted the use of the Auditorium for two nights for \$250.

The Hydro-Vacuum Company, notified the trustees it had been delayed in preparing its new plans, but would advise them when they were ready.

OFFICERS CHOSEN BY FRESNO MALE CHORUS

Music for First Concert Arrives and Practice Is Held

Officers were elected and routine business transacted at the meeting last night of the Fresno Male Chorus. Following an hour's practice, the music for the first concert has arrived and practice has begun. The date of the first concert of the season, further than in November, has not been fixed.

Officers elected last night for the year were: Honorary president, William Glass; president, D. L. Zimmerman; vice president, S. L. Platt; secretary, C. T. Elliott; assistant secretary, H. W. Hefner; treasurer, George H. Smith; librarian, H. B. Ashton; assistant librarian, H. Kerr; voice committee, C. W. Barrett, Gus Olsen, F. E. Young, H. W. Freeland; music committee, Earl Towner, John Henry Lyons, George Haddock, A. S. Perkins; director, A. S. Walther; accompanist, Mrs. E. Towner.

The applications for places in the chorus were received. The offer of Sherman Clay and Company to allow the chorus to use their store for practice during the winter was accepted.

WALL PAPER—Hundreds of patterns at all prices. The most comprehensive assortment in the valley.

Y. M. C. A. TO GIVE SPANISH COURSE

The Young Men's Christian Association will begin its year's instructive course in Spanish next Monday night under the instruction of S. D. Goss, who has acted in that capacity in the Y. M. C. A. for several years. Several have already enrolled, and a large class is looked for by the association.

Bring the Children

It is a pleasure to us to photograph them, either singly or in groups. We have seldom failed to get satisfactory results during our 19 years in Fresno.

Lectures on the Teeth

Good judgment, experience and skill are three essential qualifications the dentist should possess. Good judgment enables the dentist to advise work that he knows will be best for the patient.

Experience and skill are necessary to properly execute the work.

Twenty years of successful practice insures my patients that they will obtain these THREE qualities in my office. I make no charge for an examination. My prices are the lowest for high grade work.
